Kentucky Educational Association.

In its write-up of the Kentucky Educational convention at Winchester, the Sun-Sentinel pays Prof. J. W. Ireland, of this place, a handsome compliment and gives the salient points of one of the talks he made, as follows:

"The discussion of the 'Tenure of the Teacher's Position,' is in plain vernacular holding your job. Pedagogics have reached such a status that most good places are held by political chicanery or pull. I advocate a three or four years' tenure in this position as well as in positions of other callings. The alloy 'pull' has come to be a necessary pedagogical asset. A railroad man is chosen for an indefinite time, and why not make the trainer of minds as secure as the minder of trains? A business man keeps his store for a long period, that he may become thoroughly conversant with the different departments and avenues of trade. The mind is a store-house and the teacher should know the different departments that he may help the student to store knowledge. I maintain then that the teacher should be chosen for a term of years to stop this eternal annual pulling for positions or jobs. You may say 'if the teacher does his full duty the position is forthcoming.' Not always is this the case, for just as in politics, a most efficient man is shelved for one unskilled, because some one has imagined he was unjustly treated. Relieve the weary pedagogue of his solicitude for next year and he will cease to revolve in his mind: 'How can I make my calling an election sure?' and can feel a surety in making some advance steps, even if they do not mature in one year. The judges of the Supreme Court are chosen for life. The reasons are known to all. Why not increase the tenure of the teacher for the same reasons? We can hardly hope for a life tenure, but make it longer. Preachers are called from place to place, not for more money, but for longer opportunities and wider fields (?) The teacher is sometimes nothing more than a traveling mendicant, leaving his stores at the feet of august boards annually. Sometimes for just cause we must admit. We can not claim for ourselves such altruism as the last mentioned man, but instead of the Eternal King calling us to wider and more inviting Canaans, the money king, rarely however, calls the footsore pedagogue to a more lucrative position. Some schools, such as Owensboro, Paris, et al., have elected for three and four years. This is a forward movement that will sooner or later become the rule and not the exception."

Editor F. J. Campbell, of the Somerset Journal, who is one of the happiest mated men we ever knew, writes:

"The gospel of happiness is one that every woman should lay to heart. What it means to a man to come home to a bright, cheerful wife, no one but he who has had to fight the hard battles of life knows. If he is prosperous it is an added joy; but it is misfortune that it shines like a star in the darkness, like the sun in heaven. A complaining, negligent wife can kill the least bit of hope and courage in a sorely troubled heart while a cheery one gives new courage to begin the fight over and over again. The old trite saying, also despised because so common place that 'goodness makes happiness,' is as eternally true as that day succeeds night, and that it is only the evil which creates misery."

Remarkable Rescue

That truth is stranger than fiction, has once more been demonstrated in the little town of Fedora, Tenn., the residence of C. V. Pepper. He writes: "I was in bed, entirely disabled with hemorrhages of the lungs and throat. Doctors failed to help me, and all hope had fled when I began taking Dr. King's New Discovery. Then instant relief came. The coughing soon ceased; the bleeding diminished rapidly, and in three weeks I was able to go to work." Guaranteed cure for coughs and colds. 50c. and \$1. at Penny's drug store. Trial bottle free.

The question of whether the State may grant a saloon license in a district in which local option has been voted, where the city license extends over a longer period than the State license, is to be presented to the County Judge of Warren county, when application is made by a saloon for renewal of its State license. It is contended by the prohibition side that the State license may not be renewed and the saloon must close.

It is said that preparations will be made to entertain 50,000 people. Besides the baskets of eatables that will be carried by the members living near by, 600 hogs and an equal number of sheep will be slaughtered for the occasion. 15 barrels of pickles and 50,000 trays will be furnished.

SIXTEEN SPLENDID ACTS.

Great Free Attractions Secured For Big Blue Grass Fair.

Through an arrangement with Frank P. Spellman, of Cleveland, Ohio, the Blue Grass Fair, will have the most remarkable program of free attractions ever offered in the South. This program will include sixteen splendid acts each afternoon and each night. It is the same program done by exactly the same people which has been arranged for the Ohio State Fair at Columbus, one of the two or three biggest fairs of the entire country, and one which devotes special attention to its free attractions. These attractions will embrace practically all the interesting features of a modern circus, and the program will require about two hours for its completion. They will include Spellman's troupe of performing bears, the largest troupe of bears ever offered at any show. They will include the great Valentines, the most sensational trapeze and casting act which has been put before the public in number of years, and a number of other attractions equally good. These attractions will be a daily feature of the Blue Grass Fair from August 12th to 17th inclusive.

YOUNG ARTHUR P. GORMAN, of Maryland, is playing a bold political game, says a Washington dispatch. The stakes include two United States senatorships and the control of the Democratic party in the State. His allies are the followers of his father. His resources consist of a large fortune, considerable ability and a stoical nature. In the inner circle of the party it is known that Mr. Gorman's ambition is to sit in the Senate, as his father did. The young man is opposed to anything Gov. Warfield wants, as he charges that the latter was treacherous to his father, the late Senator Gorman. The prospects are that the fight will be to a finish and hot and furious.

THE charge having been made that Atlantic City was suffering from race suicide, the doctors took a census and report an outlook for 200 babies, while 100 arrived in the merry month of May. Local doctors lay the responsibility for the increase in families to the general seashore prosperity. The increase is showing plainest on the Boardwalk, where the daily parade of baby coaches reaches size beyond all precedent.

The Republican platform is a potpourri of platitudes. It declares for the county unit law, but has no word for the enforcement of the Sunday law and demands certain reforms that the party would not give the people, if by any chance its ticket should be elected. There are 13 planks in the concern. That makes it unlucky, and we shall from time to time show that it is unlucky.—Frankfort Journal.

WILLIAM B. O'BANNON DROWNED.—Sunday afternoon the sad intelligence was heralded over Stanford that little William, youngest son of Dr. W. B. O'Bannon, had been drowned in the pond on the Ballard place near town and the whole community was shocked beyond measure. About 1 o'clock some 15 or 18 young boys went out to the Ballard pond to go in bathing and had spent two or three hours in the water and had begun to dress and start to town when some one asked: "Where is William O'Bannon, there lay his clothes?" Some of the boys remarked: "I guess he is hiding from us." It finally dawned on his companions that he might have gotten out beyond his depth and gone down to a watery grave. His older brother, Lester, was in the party, and he, Tom Greer, Milton Powell and Chas. Downer hurriedly undressed and plunged into the water and near the lower end of the pond Tom Greer stumbled over his body and carried him ashore. Dr. O'Bannon, his father, was telephoned for and when he reached the scene a few minutes later he found the little fellow lifeless, but like all loving fathers, he thought there might be a spark of life left and it was pitiable indeed to see him work so heroically and tenderly to bring back to life his dutiful and manly little son. Dr. Cook also aided Dr. O'Bannon. William O'Bannon was one of the brightest boys in Stanford and his name was seldom missing from the honor roll of the Standard Graded School which he delighted to attend. If he had lived till next August he would have been 11 years old, but he who does all things for the best called him to that eternal home to join mother forever more. To mourn his loss are left a loving, tender, devoted father, two sisters, Misses Myrtle and Roberto O'Bannon, and brother, Lester. His step-mother, who was Miss Lillie Warner, had taken the place of mother, and she had proven in every sense of the word the amne loving and devoted mother who had gone before. Yesterday afternoon at 3:30 o'clock at the residence of Dr. O'Bannon, Eld. Joseph Ballou conducted appropriate funeral services and then all that was mortal of this dear, good boy was laid to rest beside his mother in Buffalo Springs Cemetery. A large crowd attended the burial and it was indeed a sad occasion to behold. Much sympathy is felt for the bereaved family and may God comfort them in their sad hour of affliction.

Miss Myrtle O'Bannon, who was visiting in Missouri, was denied the special privilege of seeing her brother before he was finally laid to rest. J. M. A.

Every Man His Own Doctor.

The average man cannot afford to employ a physician for every slight ailment or injury that may occur in his family, nor can he afford to neglect them, as so slight an injury as the scratch of a pin has been known to cause the loss of a limb. Hence every man must from necessity be his own doctor for this class of ailments. Success often depends upon prompt treatment, which can only be had when suitable medicines are kept at hand. Chamberlain's Remedies have been in the market for many years and enjoy a good reputation.

Chamberlain's Colic, Cholera and Diarrhoea Remedy for bowel complaints.

Chamberlain's Cough Remedy for coughs, colds, croup and whooping cough.

Chamberlain's Pain Balm (an antiseptic liniment) for cuts, bruises, burns, sprains, swelling, lame back and rheumatic pains.

Chamberlain's Stomach and Liver Tablets for Constipation, biliousness and stomach troubles.

Chamberlain's Salve for diseases of the skin.

One bottle of each of these two preparations costs but \$1.25. For sale by all druggists.

Increased salaries for teachers were recommended by the Kentucky Educational Association in session at Winchester, after it was shown that the average salary now is less than that paid section hands on railroads.
